

Birdie's Ring
INGO MAURER UND TEAM 2013

Birdie's Ring is a new member in the family of winged bulbs. It is height adjustable and can also be suspended at a slight angle. Metal, goose-feather wings, 12 LED bulbs. Three LEDs with reflectors, integrated into the round body.

Light source

12 LED bulbs x 1,3 W (exchangeable), 3 x 8 W LED (integrated), 2000 lm, 2700 K, CRI 90. With built-in LEDs. Some light sources are not exchangeable by the user.

Technical data

For 230 or 125 volts, secondary 24 volts. Integrated electronic transformer, dimmable.

More info

Prototype, not available yet. Currently on display at our Munich showroom. The wires are fixed to the white canopy with three grippers. This permits height adjustment as well as a slightly inclined suspension of Birdie's Ring.
